

OVERVIEW: SLIM PROFILE DOUBLE BRACKET SYSTEM S40/S45

The new slim profile double bracket is the latest addition to Acmeda's range. With a projection of only 85mm wide, it is available in two practical configurations; Top Front, featuring a front over roll on the top blind and Top Back offering standard back roll for both shades. The Top Front configuration provides pelmet finish to the shade, whilst the Top Back delivers the best possible light gap protection, especially on a face fix application.

AESTHETIC FEATURES

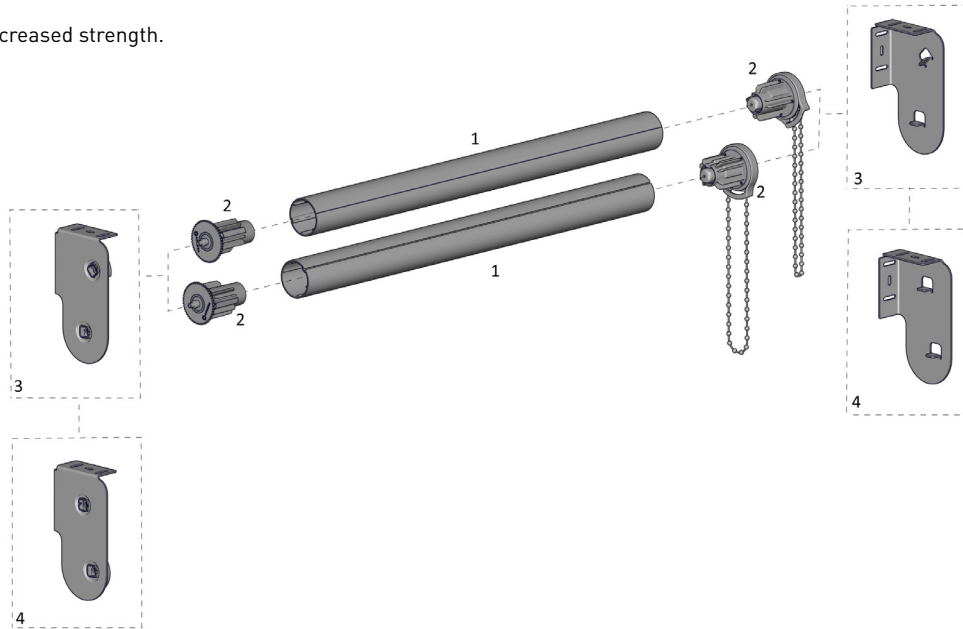

- Slimline profile.
- Contemporary colour range.

ASSEMBLY / INSTALLATION FEATURES

- Available in TOP FRONT and TOP BACK configurations.
- Universal top and face mounting.
- Easy link option for multi blind configurations.
- Longer & wider fixing plates for easier installation and increased strength.

FUNCTIONAL BENEFITS

- Ability to operate 2 blinds independently.
- Directional chain guard to avoid chain interference.
- Same side controls, available for left or right hand side.
- Motorisation & Spring booster compatible.
